Subject: Re-barrelling - S/N 109 and 101
Lens Cells - "A" Follow-on Program

Enclosure: (A) Cost Breakdown - Re-barrelling

Dear Art:

Enclosure (A) is submitted herewith covering the lens barrel transfers on two (2) Geocon (3) lenses supplied GFP to FSDS, S/N 109 and 101.

Prior negotiations of these items with your office resulted in the reduction to the total contract price of two lenses supplied GFP in the amount of [REDACTED], less the approved cost for lens barrel on one unit of [REDACTED]. This cost estimate covers, in addition to the other authorized barrel transfer on S/N 101, the cost for a barrel transfer on S/N 109 which, in effect, would allow for a backup to the fourth undelivered lens system from P & E.

I would appreciate your comments as to the acceptability of this proposal. As previously agreed, the final end contract price will be adjusted at a later date to reflect a net decrease in the negotiated price of [REDACTED].

Thank you for your cooperation in this matter. I look forward to hearing from you in the near future.

Very truly yours,
